

ENVIRONMENTAL EDUCATION

April 2020

ROGER SPOTTS
BRITTNEY COLEMAN
ALESIA GALLO
MATT GIAMBRA
JOSIE BONHAM-MARINO

<u>PROGRAM TOTALS Year To-Date:</u>	Programs	- 89
	Attendance	-2,637

Programs:

-Covid 19 has caused us to cancel all public programs and several group programs. Schools have cancelled some but not all spring programs. Scout day in the sugar Bush was cancelled. And a few school maple sugaring programs could not be completed.

-Spring school programs are very much up in the air depending on schools reopening. We are in contact with the schools and are working on setting up some on-line learning for the students including possible field trips if schools remain closed.

-Statewide Envirothon competition cancelled. County competition cancelled but we are looking at ways to have a fun on line competition to test student's skills, no winners

-Applications for Conservation Camp and summer day camp are being accepted.

-The trip to Chincoteague for Oct. has filled; there is still space on the Sept. Elk watching trip.

Miscellaneous:

-Roger did 3 phone interviews for Office Assistant position. Will look to follow up with face to face interviews for the top two candidates.

_ Becker Scholarship deadline extended to April 17th.

-All Environmental Educators have been working from home designing video and photo programs to use with schools, and writing blogs. Alesia has continually updated website and other social media platforms. Roger has worked in the office on program design, site maintenance, finances etc.
