How does your support make a difference?

For more than 40 years, the Kettle Creek Environmental Education Center has been a trusted leader in our community on improving the environment through education and conservation. Funds raised through membership fees and donations go to directly support the Kettle Creek Environmental Education Center. With this, Kettle Creek is able to educate students from all school districts throughout Monroe County. This means kids are getting out of the classroom and learning about the natural world around them. Because of funding from you, we are able to provide trained environmental educators to develop programs fit for folks of all ages throughout our area! Our staff is not only sharing their natural knowledge throughout public schools, but also at local senior centers, daycares and more!
