Paul A. Golrick, P.G. is a soil scientist and Professional Geologist responsible for project development, management, and oversight. Paul received his B.A. in May 1983 from the State University of New York at Potsdam and M.S. in Soil Science from the University of Kentucky - College of Agriculture in May 1987.

Paul conducts soil and geologic investigations for a number of land development uses including sewage disposal, stormwater management, construction inspection, soil classification, and geology evaluations including carbonate bedrock evaluations. He prepares technical reports and provides testimony as needed to obtain approval for land use projects from a variety of regulatory agencies. He also contributes to company management as part of the ownership team.

Paul is also an Adjunct Faculty Instructor Delaware Valley University-College of Science & Agriculture, Doylestown, PA for their core required undergraduate course Environmental Geology. This class combine both lecture and laboratory instruction involving course content of basic geologic principles, mineralogy, rock types, environmental hazards, classification of geology for use in land and environmental planning.

Paul is a member of Pennsylvania Association of Professional Soil Scientists (PAPSS), Pennsylvania Association of Sewage Enforcement Officers, Pennsylvania On-Site Wastewater Recycling Association (POWRA), SBN Sustainable Business Network of Philadelphia (SBN), Pennsylvania Sewage Management Association (PSMA), and is on the PA Sewage Advisory Committee (SAC) as an Alternate Member. He is a certified Pennsylvania Sewage Enforcement Officer and past PAPSS Professional Soil Scientist president.
